DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, are, drawn to a method of making a cable tie, classified in class 425, subclass 131.1.
- II. Claims 14-23, are, drawn to a cable tie, classified in class 24, subclass 16pb.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I, and Group II, are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product of Group II, as claimed can be made by another and materially different process, such as the step of forming a length of continuously molded strap material and then cutting it to a desired length, and the step of using rotary extrusion molding as recited in Group I, are not required in order to produce the article claims as recited in Group I.

Art Unit: 3677

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I, is not required for Group II, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor Sakran whose telephone number is (703) 308-2224. The examiner can normally be reached on Monday-Thursday from 6:30 AM - 5:00 PM.

Art Unit: 3677

8. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann, can be reached on (703) 308-4115. The fax phone number for this Group is (703) 872-9326 (before final) or (703) 872-9327 (after final). Customer Service fax can be reached at (703) 872-9325.

9. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-2168.
